## Education

2017 - 2020  **Game Programming**  
**The Game Assembly**  
Throughout 8 interdisciplinary game projects I've created games using C++. The 4 latter was done in our own engine I helped create. Thereafter my focus have mainly been on gameplay programming.

Selection of specifics:

- Player movement
- 3rd person aim/shoot mechanics
- AI movement and behaviours
- First person shooter controls
- Dynamic HUD display

2011 - 2012  **Live Broadcasting Specialist**  
**Xenter**  
Specialized in live TV production taking part in sports and entertainment productions. Learned to produce and film as part of a production team, big or small.

I believe in goodness. Good people make me want to be better and I aim to inspire others to feel the same. Good teams make good games. Great teams make great games. Let's be great!

## Experience

2019 - 2020  **Programmer Intern**  
**Tarsier Studios**  
Worked on several projects in Unreal Engine 4 including Little Nightmares 2 mainly as gameplay programmer with contributions to UI and visual effects (particles etc.).

2009 - 2017  **Media Producer**  
**Brynäs IF Hockey**  
Responsible for all media during every sports event throughout the seasons. Lead a small team delivering customized videos, effects, light shows, music and much more.
